

Dear potential bartender,

We're so glad that you've shown an interest in joining the RUCbar family. In the next page, we'll go more into depth with what you can expect from us and what we expect from you as a bartender 😊

What you can expect:

- Committed and passionate colleagues
- A fun working environment
- The opportunity to expand your network at RUC
- Flexible working times
- Plenty of opportunities to try new things and see your great ideas come to life
- Many social events with your fellow bartenders and other active students at RUC
- Basic bartender and barista training
- An experienced bar chef at all of your shifts

What we expect from you:

- The desire and willingness to be a part of a volunteer organisation that's an active part of the social environment at RUC
- That you take at least 4 shifts a semester, where 1 is a Party shift
- That you take 1 shift a month during the first 3 months of the semester
- A proactive attitude
- That you can manage stressful situations with a smile on your face
- That you are service-minded and love to help out

As a bartender, you will be working behind the bar in the Student House at RUC, and occasionally behind our bar in the canteen at the bigger parties. Each shift is between 6 and 9 hours – it depends on the weekday and the events planned. There is a bar manager who takes care of the general procedures opening the bar and supports you behind the bar. There is a meal provided per shift, as arranged beforehand with the bar manager.

The shifts are (as standard) Monday-Wednesday from 10.00-18, Thursday and Friday from 10.00-16.00 and 16.00-23 (the closing time is debateable and we're often open longer, since we evaluate it based on how much customer activity there is at the end of the day). You'll get 200kr in a drinks voucher for each shift – the money will be put on your personal bar card, so you can use them in the bar when you're off-duty as well.

We're really looking forward to getting to know more about you 😊

Best regards,  
RUCbar's management
